### Keywords

Softlock, License

### Symptom (public)

### Problem (public)

Will I need a new softlock license, if I install a new version (update) of logiCAD/logiDOC?

### Solution (public)

No. An installed softlock license remains valid when updating to a new version of logiCAD/logiDOC. However, you will need the appropriate enabling codes for the new version. You will get these codes together with the update package.
